**PLEASE PHOTOGRAPH THE FOLLOWING (if present):**

1. Entire equipment in which the engine is installed, including if possible the owner ID number
2. Equipment serial plate showing legible serial number
3. Entire new/old engine
4. Engine serial plate showing legible serial number
5. Emissions information sticker showing all legible information
6. 2"-3" diameter hole broken in old engine block
7. Hour meter of new engine

Include in each photo, a 3"x5" card labeled with the project/engine number in large, bold writing. (HINT: Attach the card to the equipment/engine with a magnet clip.)

**PLEASE LABEL THE PHOTOS AS FOLLOWS:**

Identify the subject of each photo by filename, using this format:

NNN.NN\_000.jpg

Where *NNN.NN* is the project/engine number, and *000* is the photo number.

Keep the *.jpg* extension (but do not type it a second time)!

Please include this filename in the footer when printing the photos.

Upload the digital photos to District server folder O:\Moyer\Inspectors.
